One-month scholarships offer for PhD students and postdocs for stays at the partner University of Vienna in 2021 (September – December)

Following the previous experience, our partner university in Vienna offers **4 one-month academic stays suitable for PhD students and postdocs** within the framework of the interuniversity cooperation.

The above mentioned academic stays are scheduled for September – December 2021 and shall therefore be initiated within this time period. **Please note that all candidates will be responsible to manage the accommodation for the academic stay on their own. Each successful candidate reserves the right to receive 1.000 € scholarship per month.**

Furthermore, the candidates are appointed to agree on the details of their academic stay with their respective academic partner (i.e. supervisor); you can also find your own academic partner on <http://www.univie.ac.at/organisation>.

Each candidate is supposed to provide the academic partner with a brief personal introduction and enclose the description of the actual academic stay. Moreover, each candidate shall inform the respective academic partner about the one-month scholarship claim (if applicable) and arrange the term of the eventual academic stay beforehand. The academic partner will subsequently issue the Acceptance letter of a supervisor; please note that this letter has to be enclosed along with the other following attachments (in English):

- Application form
- Standardized Curriculum Vitae
- List of publications
- Short bibliography related to the research topic
- Detailed description of the research project and its main purpose
- Recommendation letter from the CU and grade point average from the previous study
- Pre-acceptance letter from the University in Vienna (acceptance letter of an academic supervisor)

You may find additional details in **Research grants 2021 for young researchers within the partnership-agreement with the University of Vienna**.

All application forms have to be submitted to the International Relations Office of the Rectorate of the CU until **22 July, 2021**.

Please note that the candidates are supposed to submit the documents to the respective International Office Department of their faculty. The deadline will be specified by each faculty itself! Each faculty is responsible for its own pre-selection of the candidates for the aforementioned academic scholarships. The final selection procedure will be carried out by the Vice-Rector for the International Affairs and Mobility of the Rectorate of the CU.
